Cooperatives **BUILD**

CO-OP MONTH 2016

Electric Co-ops Build Stronger Rural Economy National Cooperative Month in October

Nolin RECC is joining with 30,000 other cooperatives nationwide in October to celebrate National Cooperative Month, which recognizes the many ways cooperatives help to build stronger communities and a stronger economy.

“Cooperatives Build” is the theme for this year’s celebration, spotlighting the many advantages and services cooperatives offer to their members and the communities in which they live and work. Nationwide, cooperatives create 2.1 million jobs and generate more than \$650 billion in sales and other revenue annually.

Rural America is served by a network of about 1,000 electric cooperatives, most of which were formed in the 1930s and 40s to bring electricity to farms and rural communities that large, investor-owned power companies had no interest in serving because of the higher costs involved in serving low-population-density areas.

Incorporated in 1938 by a local group of strong-willed and dedicated farmers, Nolin is owned by the people we serve, and all of our efforts are aimed at delivering improved services locally. Members control the co-op through their democratically elected board of directors.

In honor of Co-op Month, Nolin will offer members a 60-watt equivalent LED light bulb in October. Clip the original coupon from your October *Nolin News*, which appears in the *Kentucky Living* magazine, and present it at the Elizabethtown or Radcliff Nolin RECC office to receive your free LED. Light up National Co-op Month with an energy efficient LED light bulb!

Pay Your Way with PrePay

Nolin's PrePay is easy and convenient. You purchase electricity before you actually use it. You can make payments online, by phone, or in person at the co-op office. When your account runs low, you will receive an alert by e-mail or text to let you know it is time to add money.

Benefits include:

- ✓ Pay a little or a lot! You're in control of the payment amount!
- ✓ You choose when to pay your energy bill.
- ✓ No disconnect or reconnect fees.
- ✓ No deposit required.
- ✓ No late fees.

It doesn't get much easier than PrePay! It's an efficient and manageable way to pay for electricity.

**Know what's below.
Call before you dig.**

Call 811 Before You Dig

Because underground service continues from the transformer to your home, you should never dig anywhere in your yard without first calling 811 to find out where cables are buried. Call 811 a few days before digging to have your service lines located for FREE!

COMFORT AND SAVINGS

An energy-efficient heat pump can do it all.

A new system helps to deliver heating and central cooling with added efficiency, performance and savings when compared to older HVAC systems. And when you upgrade your system, you may be eligible for a rebate from Nolin RECC through our Heat Pump Retrofit program or an ENERGY STAR® Appliance rebate.
