Nolin RECC sends crews to areas impacted by tornado

ELIZABETHTOWN, Ky (December 12, 2021) – In response to the devastation caused by a historic winter tornado event in several communities in Kentucky early Saturday, Nolin sent ten line technicians to aid in recovery efforts this morning. Several linemen will go directly to help Warren RECC and one crew will start with Meade County RECC to help finish repairs there and join the rest at Warren once members in Meade County are restored.

As a cooperative, Nolin participates in mutual aid efforts to help other co-ops in the region when a large-scale event happens. Even with the crew helping in Louisiana, Nolin always maintains enough personnel locally to respond to any issues that might arise at home.

“Crews rolled out early this morning with bucket trucks and other equipment. They join several other co-ops that have come in to help from around the region. It is unknown at this point how long crews will stay – that will be impacted by the on-going damage assessment in the area,” says Nolin RECC Communications Manager Sarah Fellows.
